Location: Ahmedabad

Sr. QA Engineer

Experience: 4-5 Years

A Test Automation Engineer has an STE's skills but they are automation-oriented. In addition to that:

Common computer languages required for different automation testing technologies:

Python, Java, Ruby, C++, Perl, PHP, C#, etc. Platform specifics (a web application or mobile app).

Automation testing tools: Selenium, TestComplete, Katalon Studio, and Ranorex;

Ready-made automation frameworks instead of building elaborate automation frameworks from scratch: Serenity BDD, a Java-based framework, or developer-centric Cypress, etc.;

Mobile automation testing tools for Android, iOS, and cross-platform ones; API testing tools that require strong coding skills to create tests: REST Assured, RestSharp, jMeter, Appium, Detox etc.

Continuous Integration Tools (Jenkins, TeamCity, Bamboo, etc.)

Email: hr.ans2020@gmail.com.
